

## WHY drink steam purified H<sub>2</sub>Oxy<sup>®</sup> water ???

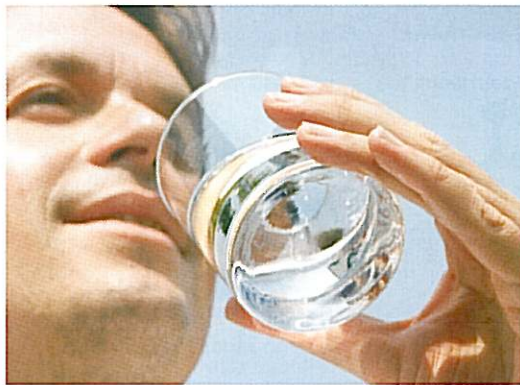

**WE ARE TWO-THIRDS WATER !**

Steam purified/distilled water helps remove toxins and waste from your body, making minerals & vitamins from your food more absorbable.

**YOU CAN MAKE YOUR OWN HEALTHIEST MOST DELICIOUS, pH NEUTRAL BIO AVAILABLE DRINKING WATER AT HOME**

for approximately

**11c** a litre !

Steam purification removes EVERY pollutant including fluoride, from ANY water supply (bore, sea, river and lake water.) no matter how "treated," contaminated, or multi-chemicalised.

*Delicious steam purified drinking water.  
Your first line of Defence !*

## USE **SPRING FLOW™** Steam Purified Water for

Drinking Water

Ice Cubes

Coffee & Tea

Boiling Pasta, Rice

Steamed Vegetables

Sauces • Gravies • Soups

Baking

Baby Formula

Pet's Water

Home Brew

Steam purified water's unique properties allow it to absorb and carry flavours much more vividly than any other water. The result is tastier soups and sauces and the best tasting coffee and tea you ever had !

*If tap water was truthfully labelled,  
many people would not drink it.*

## HEALTH BENEFITS

**SPRING FLOW™** Drinking Water Steam Purifier

- Pure, unadulterated steam-purified water can assist ALL health-giving biological processes such as
- Revitalising inner house keeping
- Detoxifying and acidity levels
- Joint mobility, kidneys, allergies
- Plumper, clearer skin
- Digestion and waste elimination
- Blood circulation
- Weight management

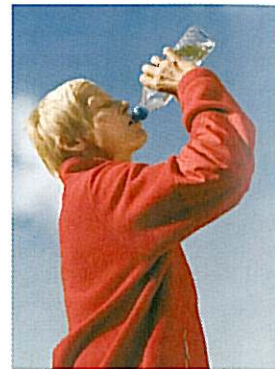

### THE CHOICE IS YOURS !

*Why drink polluted, multi-chemicalised, all-purpose tap water?*

*Why be exposed to the "Mysteries and Miseries" of Alzheimer's, Parkinson's, ME, MS, Arthritis, nervous system dysfunctions, and ADHD syndrome in children?*

*The causes of these degenerative conditions - which can also result in connective tissue and bone deformation - are not fully understood but show suspicious links to contaminants in our drinking water supplies, and food.*

Fill your bottle for **11c** per litre

### DEGENERATIVE AILMENTS

Any water that has been in contact with impure air, earth, soil and rocks, is of a less suitable constitution. Bad, dead, useless, contaminating, hard minerals, absorbed in the body, and rejected by the cells (as rejuvenating or building blocks) are partially excreted if you drink enough pure liquids, but otherwise settle in your joints, or inside the plaque in your arteries, and is then called HARDENING OF THE ARTERIES; or create kidney stones. Settlement in joints creates crystals, which work destructively, like sand in ballbearings, causing wear and pain.

This residue is ideally removed by DISTILLED WATER.

*"Doctors are for emergencies,  
For Aging problems, you are responsible yourself! "*

SPRING FLOW™

### Drinking Water Steam Purifier TESTIMONIALS

"...very pleased the water seems lighter,  
much easier to drink"

"...distiller will pay  
for itself in 3 months  
great!"

"...dry flaky skin and  
roughness on feet and arms...  
now supple and amazingly  
youthful ...change is quite  
amazing...no longer prune-like  
66 yr old"

"I suffer from arthritis  
and have experienced a  
lot of improvement...no  
longer get sharp pains..."

"...even my puppies love it!  
...they lapped it up and  
wanted more..."

"...use distilled water in my  
bread maker .. bread is softer,  
better taste and texture..."

**Fluoride:** Corrosive, Class 8 Dangerous Goods, HazChem 2  
in public water supplies is an unethically enforced,  
unsolicited form of mass pseudo - medication  
administered to the unsuspecting public in uncontrolled  
doses. WHY???

The core medical premise is "do no harm" !  
The SPRING FLOW™ Steam Purifier/distiller  
removes fluoride.

*Fluoride confuses the immune system,  
and depletes energy reserves.*

## WHAT IS STEAM PURIFICATION?

First, water is heated to boiling and converted into steam. ALL impurities are left behind. As the steam cools, it condenses into pure, delicious drinking water as nature intended.

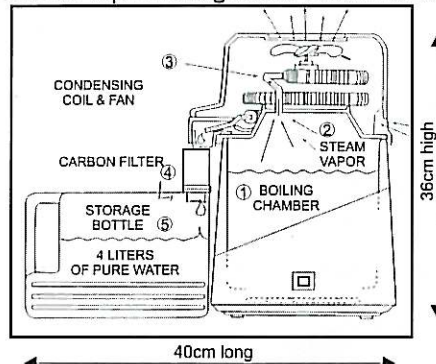

Hydrogen (2 of-) and oxygen (1 of-) together form the molecule of Water.

That water alone, ADDITIVE FREE, is the impurity free liquid the lymphs and blood use in their work.

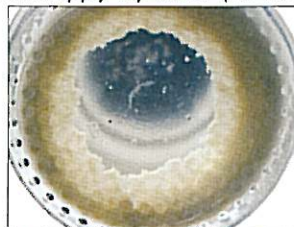

**DISTILLATION** eliminates ALL contaminants such as bacteria, viruses, lead, aluminium, chlorine, fluoride, giardia, salt, agricultural sprays, nitrates and asbestos, hormones, medical residues.

Counter-top Drinking Water Steam Purifier

Impurities left in boiling chamber after distillation of  
town supply tap water (40 litres)

*Steam Purified water is the healthiest - pH neutral  
"bio-regulator" for your body.*

## FREQUENTLY ASKED

What contaminants are in tap water?

What about Fluoride??

How much pure water does it make? How long does it take?

What installation is required?

Any filter needed?

What is steam purified water?

H<sub>2</sub>Oxy®

Many all-purpose water supplies are treated with the biocidal sanitising agent chlorine, the clearing agent aluminium sulphate (suspiciously associated with Alzheimer's). There could be asbestos, copper, zinc and lead from pipes.

Fluoride is classified (NZ and Australia) as corrosive, Class 8 Dangerous Goods, HazChem2 and is banned in most countries. It can not be filtered separately from useless inorganic minerals.

Spring Flow™ makes 4 litres of pure drinking water every 5 1/2 hours. It automatically switches off at end of cycle.

None, so easy to use. The unit is electric and portable. Just fill it, plug it in and switch on at the wall.

A post-distillation carbon filter is recommended for finer taste. (6 carbon filters included with unit)

It is pH neutral, non acidic, non toxic, bioactive, organic like rain water and has retained its normal oxygen level.

The stainless steel inside of the boiling chamber

How is the pure water collected?

What's the warranty?

As the steam cools and condenses, it is collected in a 4 litre polycarbonate optimum food grade bottle.

Spring Flow has a one year warranty for parts and labour.

*All water is originally distilled  
rain water.*

## FACTS & FALLACIES

**FALLACY:** Minerals are derived from the water we drink.

**FACT:** The source of MINERALS for the body is the food we eat - not the water we drink. Inorganic minerals are deposited as toxic crystals in the joints and tissues.

*As agricultural soils are increasingly mineral-depleted, the foods we eat today are not as nutritious as in the past. Most people are mineral deficient.*

Steam purified water enters your system **CLEAN!**  
It will wash out accumulated hardness and toxins.

**FALLACY:** Tap water is "treated" so it is pure enough.

**FACT:** The **DARK** side is, all-purpose tap water can also be treated with disinfectants such as chlorine (a necessary evil) or sometimes aluminium sulphate. Water suppliers find it "uneconomic" to treat water to a high level of purity as up to 97% of the water supply will be used by industry and to flush toilets, mop floors, wash clothes.

The toxic mineral **FLUORIDE** may also be added to your tap water: listed as a Class 8 Dangerous Goods, HazChem 2 substance.

Enforced mass medication is a violation of human rights!

**FALLACY:** RURAL is better than treated town supply.

**FACT:** The **BITTER** truth is, bore water or rural gutter water can be heavily polluted with pesticides, herbicides, faecal bacteria and giardia, a cocktail of bird droppings, zinc, copper, fertiliser, pesticide residue and insects.

SPRING FLOW™ distilling removes all impurities.

**FALLACY:** Boiling water removes impurities

**FACT:** Boiling water will kill living organisms only.

**FALLACY:** re-structured water is required for health

**FACT:** Steam purified/evaporated/distilled water is made nature's way.

**H<sub>2</sub>Oxy**®

Let COMMON SENSE prevail! Have Peace of Mind!  
What to believe about other drinking water treatment systems.

**DO** believe the water pollution problems.

You **DON'T** have to believe in "magic" treatment systems like: • electrolysis • energisers • volcanic rock • magic plates • crystalisers • ionisers • alkalisers • clusters • hexagonal water • vibrational healing water

## TECHNICAL INFORMATION

**SPRING FLOW**™ Drinking Water Steam Purifier / Distiller

**H<sub>2</sub>Oxy**®

Distillation Time :  
Purity Rating :  
Carbon filter life :

Electrical Cost:  
Power:  
Dimensions :

Safety:

Features:

- Portable unit - no installation required
- White baked enamel on steel plate (NZ only) or stainless steel models
- Stainless steel boiling chamber
- Stainless steel cooling coil
- **Automatic shutoff at end of cycle**
- One 4 litre collection bottle

Makes 4 litres in 5 ½ hours  
Total Removal  
Lasts 30 Days max.  
Comes with 6 x filters  
Approximately 11 cents /litre  
580W  
Height:36cm Width: 23cm  
Length: 40cm  
(Includes 4 litre collection bottle)  
Model MH943/S has passed the CE and AS/NZS 3350 Safety Standard.  
Approved for medical use.

*Especially designed for use in Australasia.  
This distiller will make healthiest pH neutral drinking water from ANY water supply like bore, sea, river and lake water.*

⚠ Due to the wide range of carbon filters available, and the variability of their filtration capacity depending on unicran rating - impurities removed from water remains in the carbon and progressively reduces its effectiveness - there are no absolute values here.

# removal rates vary between 80-100% depending on quality and contaminant.

If any drinking water filter does not remove **FLUORIDE**, be suspicious. There are also other impurities that filters can not remove.

*Many thousands of happy, healthiest users have given Springflow the big tick.*

## THE BEST WAY TO PURIFY DRINKING WATER Here's What the Experts Say:

David C. Kennedy, D.D.S.:

*'How To Save Your Teeth: Toxic-Free Preventive Dentistry'*

"Even tap water invariably contains a variety of poisons such as chlorine, chloramine, asbestos, pesticides, fluoride, copper, mercury, and lead. The best way to remove all these contaminants is by distilling."

Robert D. Willix, Jr., M.D.:

*'Maximum Health'*

"If you decide on bottled water, make sure it's distilled, (however), in the long run you'll save money if you clean your water at home. It's more convenient than hauling gallon jugs from the store. The 'gold standard' for purifying your water is a system that distills your water and filters it. You have the comfort of knowing there is no chlorine, fluoride, bacteria, viruses, pesticides, or lead. You get nothing but H2O."

Dr. Allen E. Banik:

*'The Choice Is Clear'*

"Let me classify the nine kinds of water. They are hard water, raw water, boiled water, soft water, rain water, snow water, filtered water, de-ionized water, and distilled water. All are kinds of water - but remember this: only one of these nine kinds of water is good for you. Distilled water is water which has been turned into vapor, so that all its impurities are left behind. Then, by condensing, it is turned back to pure water. It is the only water which is pure - the only water free from all impurities".

Harvey & Marilyn Diamond:

*'Fit For Life II: Living Health'* [www.fitforlife.com](http://www.fitforlife.com)

"Distillation provides us with the purest water obtainable . . . by all means make the smart choice in the type of water you drink. There should only be one choice - PURE! And pure means distilled."

John Yiamoyiannis, Ph.D.:

*'Fluoride: The Aging Factor'*

"The home distiller is the best method and also the best way to get distilled water. It is the only reliable home water purification for taking fluoride out of the water."

Dr. Charles Mayo of the Mayo Clinic: [www.mayoclinic.com](http://www.mayoclinic.com)

"Water hardness (inorganic minerals in solution) is the underlying cause of many, if not all, of the diseases resulting from poisons in the intestinal tract. These (hard minerals) pass from the intestinal walls and get into the lymphatic system, which delivers all of its products to the blood, which in turn, distributes to all parts of the body. This is the cause of much human disease."

Paul C. Bragg, N.D., Ph.D.: [www.paulbragg.com](http://www.paulbragg.com)

"Again, let me state empathetically that, in my opinion, the misery of arthritis is caused by hard water saturated with inorganic minerals and an unbalanced diet, forming acid crystals in the moveable joints, plus inactivity of the body in general."

Allen E. Banik, M.D., *who spent much of his life researching the effects of water on the human body reported the following in his publication, 'The Choice Is Clear':*

"The only minerals that the body can utilize are the organic minerals. All other types of minerals are foreign substances to the body and must be eliminated. Distilled water is the only water that can be taken into the body without damage to the tissues."

The American Medical Association reported that, "The body's need for minerals is largely met through foods, not drinking water."

Paul Bragg, N.D., Ph.D.:  
*'The Shocking Truth About Water'*

"The greatest damage done by inorganic minerals - plus waxy cholesterol and salt - is to the small arteries and other blood vessels of the brain (75% water).

Hardening of the arteries and calcification of blood vessels starts on the day you start taking inorganic chemicals and minerals from the tap water into your bodies."

James F. Balch, M.D. & Phyllis A. Balch, C.N.C.:

*'Prescription for Nutritional Healing'*

"Distillation involves the process of vaporizing water by boiling it. The steam rises, leaving behind most bacteria, viruses, chemicals, minerals, and pollutants from the water. The steam is then moved into a condensing chamber where it is cooled and condensed to become distilled water . . . We believe that only steam-distilled water should be consumed."

Peter A. Lodewick, M.D.:

*'A Diabetic Doctor Looks at Diabetes'*

"The only type of water that seems to be fit for consumption is distilled water, which is water that is absolutely free of any minerals or chemicals. Distilled water is made pure by first being heated to the point of vaporization, so that all of the 'impurities' are left behind. Then, the water vapor is condensed. The process results in water that is in its purest form. Distillation is the single most effective method of water purification."

### Drinking Water Steam Purifier / Distiller

A most desirable and necessary Home Appliance !

#### EASY TO USE

Fill it with 4 litres of water, plug it in and walk away.

In 5 ½ hours (overnight or while at work),

you'll have the healthiest,

most delicious, bio available, **organic** drinking water.

Good health is priceless and we help make it affordable at

only **11c** a litre !

Your Supplier:

Authorised importer (since 1989)
